Project Attica appreciates and thanks you for  
any donations.

## ART AND ACTIVISM

## OUR MISSION

Project Attica is a not-for-profit organization devoted to educating the public about the status of mass incarceration in the United States by working with youth and underserved communities.

Project Attica seeks to educate underserved youth about their rights when encountering the police, mass incarceration, and other critical social justice issues through art-centered activities and programs.

Project Attica is pending 501(c)(3) status and welcomes donations.

Your donation helps us pay for materials and food for our workshops and helps students become artists.

## THE ARTIVIST WORKSHOP

This interactive workshop fosters creativity, promotes leadership, and stimulates awareness of social justice issues.

In our workshops, we encourage students to engage with social justice issues they are passionate about, such as gun violence, police brutality, environmentalism, and many more. We provide a platform for and empower students to talk about issues that affect their neighborhoods, their families, and themselves.

We then discuss the concept of "Artivism" and about how politic beliefs can be expressed through art as a form of activism.

We then invite attendees to become an Artist by creating their own t-shirt. We provide t-shirts and supplies, as well as stencils spanning dozens of topics for students to use.

Our workshop can be tailored to any group and our presentation can be adapted to work within an existing curriculum or to build on a class assignment.

## KNOW YOUR RIGHTS

You're standing on a street corner and a cop approaches you. What do you do? What are you supposed to do? Can you walk away? What if they ask for ID? To search your backpack?

Many New Yorkers are forced to interact with police on a regular basis. Our interactive workshop gives people the knowledge and tools to help navigate those situations safely and while protecting their rights.

Our Know Your Rights workshop can be tailored to address the specific needs or concerns of attendees.
